BATTLE LAKE'S NEW FLAME PLUM

This new plum (our own propagation) is being offered here for the first time. Fruit is a bright flaming red, contrasting beautifully with the glossier dark green leaves. The plum is very firm and tasty. A good keeper and shipper. Prof. Alderman of Minn. Fruit Farm emphasized these qualities of the New Flame Plum in a letter to us.

Nice 4-5 ft. trees 75c each while they last

WINTER APPLE

HARLSON—A great big red apple originated by Minn. Fruit Breeding Farm that ranks tops in every way. Quality excellent. They keep in ordinary cool cellar all winter. The trees are rugged and hardy and free from fireblight. Does not form bad crotches. Hardy into Canada. Bears on young trees 2-3 years after planting.

SAPA BLUE PLUM SEE PAGE

SAPA—Similar to Okra with dark blood red juicy flesh. Makes a wonderful plum sauce. Limbs are annually loaded with fruit from ground to top. Plant close to Concord cherry for pollinating.

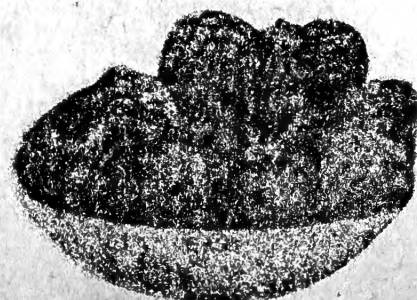

NEW MINNESOTA

A FRONT SIDEWALK PLANTING

A Mugho Pine at each side of top of steps with two Savin Junipers below gives a very pleasing effect. On narrow lots the Mugho Pines may be used alone.

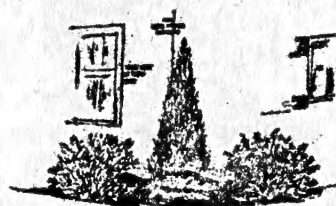

FOR CORNER OF HOUSE

Here either the Silver Cedar or the Red Cedar provides the needed height. With a Mugho Pine at each side, and either a Pfitzer or a Savin Juniper between these two, the effect is harmonious.
